

## To whom it might concern

The purpose of this letter is to help students in obtaining the required documentation for enrolment and ongoing study activity at their degree programs at your institution.

The Danish Agency for Higher Education and Science is in charge of administering the Danish Educational Support. The Danish Educational Support is a grant and a voluntary student loan given to students as financial support when they study a higher degree program in Denmark or abroad. The educational support is given as monthly payments throughout the duration of the degree programs.

In order to receive the Educational Support the students are required to hand in official documentation from their educational institution study at start, during the course of the study and at the end of the study. The documentation should state that the student has been enrolled full time on their particular degree program. The documentation should also provide information about the planned duration of the program as well as the precise date of commencement and last day of study activity.

The sole purpose of the documentation is to confirm that the student has been enrolled and to decide for which period of time the student is entitled to receive Educational Support from the Danish government.

For the above reason, we kindly ask that you provide the student with the required documentation.

Yours sincerely
